

Naloxone is the only medication that can quickly reverse the effects of an opioid overdose of fentanyl, heroin, morphine, and codeine. Timely administration of Naloxone can save lives and reduce the risk of long-term harm from an overdose. Our Naloxone Kits are designed to be simple and easy to use in a state of an emergency overdose.

## Features and Benefits

- Portable with attached carabiner
- Kits are small and lightweight making them easy to carry with you wherever you go
- Designed to be easy to use even for someone with no medical training
- **Naloxone only works if you have opioids in your system, such as fentanyl, heroin, morphine, and codeine.**

Emergency  
Kits
