

McKesson medical face masks are constructed with a three-layer, nonwoven fabric featuring a spunbond polypropylene on the inner and outer layers and a meltblown polypropylene middle layer. These Level 1 face masks feature elastic ear loops that stretch for convenient donning, quick removal, and a comfortable fit.

Features and Benefits

- Meets the ASTM requirements for Level 1 barrier protection
- Cool and breathable SMS material with pleated design
- Flexible metal nose-bridge bar bends to fit user's unique facial contours
- Non-sterile
- Not made with natural rubber latex
